

Famous Astronomers

Your presentation should last about 12-15 minutes and should include a short biography. It should cover that the Astronomer discovered and how was it done.

1. Tycho Brahe
2. Galileo Galilei
3. Christian Huygens
4. Edmond Halley
5. Charles Messier
6. Caroline and William Herschel
7. Clyde Tombaugh
8. Adams and Leverrier
9. Edwin Hubble
10. Clyde Tombaugh
11. Nicolaus Copernicus
12. Giovanni Cassini
13. Galileo Galilei
14. Stephen Hawking
15. Joseph von Fraunhofer
16. William Fowler
17. Sir Fred Hoyle
18. Arthur S. Eddington

Note: The presentations will be assigned a night for their presentation based upon the order that they are chosen. The first to choose will be the first to present. If choices are not made, they will be assigned by your instructor.
