

Presentation Possibilities

Each student will prepare and present a eight to 10 minute power point presentation on one of the following subjects.

Presentations will begin on the sixth class session with about seven students presenting each night. The order for student presentations will be based upon when the subject was chosen. The first subject chosen will be the first one to be presented in class. Half of the presentation's grade will be based upon the PowerPoint presentation developed in the lab on the fifth class session. The other half will be based upon the techniques used in the actual presentation.

1. Software firewalls
2. Hardware firewalls
3. Anti spy ware software
4. Anti virus software
5. Universal plug and play
6. Anti Spam
